Re: FPPC Advice No. A-86-046

Dear Ms. Faust:

This is in response to your recent letter requesting advice regarding the campaign disclosure provisions of the Political Reform Act (Government Code Sections 81000-91015). Specifically, you asked whether a \$500 contribution received by the Alliance for Responsible Government on January 31, 1986, must be disclosed in a late contribution report. During our telephone conversation on or about February 6, 1986, you stated that the Alliance for Responsible Government is primarily formed to support or oppose candidates or measures involved in a March 4, 1986 city election.

Government Code Section 82036 defines "late contribution" as:

... any contribution including a loan which totals in the aggregate one thousand dollars (\$1,000) or more that is made to or received by a candidate, a controlled committee, or a committee formed or existing primarily to support or oppose a candidate or measure before the date of the election at which the candidate or measure is to be voted on but after the closing date of the last campaign statement required to be filed prior to the election by a candidate or committee participating in such election.

The late contribution reporting period for the March 4 election was February 16 through March 3. Therefore, only contributions totaling \$1,000 or more, in the aggregate, from a single source received during that period were required to be reported as late contributions.

Since the \$500 contribution received on January 31 does not meet the definition of a "late contribution," no late contribution report was required to be filed with respect to that contribution.
